

## **Appendix 5 – Village Survey**

Background: The terms of reference of the steering committee and the motion resolved at the Full Council Meeting tasks the Steerings Ctte to develop a village survey. This Paper seeks to ask questions to consider the scope of such a survey and what measures will be used to judge its success.

The questions listed here are not exhaustive but seek to form the basis of further discussions.

1. What demographics do we want to attract to take the survey?
2. Do we want this to be residents only? Or do we want to include visitors to the village? Does this include users of facilities? Does this include visitors? Does this include workers?
3. How do we ensure the survey is accessible to the groups we want to attract?
4. Should the survey focus on the village itself or on the performance of the Parish Council?
5. How often do we approach respondents in the future?
6. Do we use the survey and engagement as a method of creating a mailing list?
7. Do we want to use the facility to ask questions on behalf of other groups within the village?
8. Do we want all respondents to answer the same questions or do we want a separate age appropriate survey for younger respondents?
9. When / where do we want to present the results – Annual Parish Meeting?
10. Anything else?
