Governance Committee

There are four recognized elements of financial management: (1) planning, (2) organising and directing including risk management (3) decision making and (4) regulating. The last two of these can and should be managed by the full Parish Council.

The Governance Committee can support this by taking responsibility for the first element. An organisation needs to have both a strategic plan and a budget. The strategic plan lays out the direction and goals of the organisation and guidelines for actions to achieve those goals, while the budget looks at the money needed to support achieving those goals.
