

Clerk Report

HS2 Funds- Water Orton Parish Council-Award Reference

The Parish Council was awarded £51,612.00 for the modernisation of Water Orton Bowls Club project. The sum of £42,007.23 has been paid out. The clerk has been provided with the online forms to commence the process of claiming the remainder of the grant through the online forms. To receive the final grant instalment, these forms require the upload all invoices for the project as well as a certificate of practical completion from the contractor.

Land adjacent to Dog Inn/Marsh Lane

The clerk has emailed Libertas for an update regarding the agreed lump sum payment of £20,000. The clerk has not yet received a response but was previously advised that it was agreed the payment would be made on completion of the purchase of the land. The completion date is set for August.

Installation of Dog Waste Bins-Old Saltleians

This was on the agenda for the Resources and Facilities Sub Committee meeting that took place on Monday 24 June 2024. At the meeting the action discussed was for the Clerk to continue the costings for the bins to be sited and cleared.

Going forward, if the Rugby Club's proposal is to purchase and maintain the bins from their own funds, how this is implemented. As the bins would be sited outside of the Old Saltleians ultimately the responsibility would be that of the Parish Council to ensure the collection of the bins, and the costs for the collection would be under the contract that the Parish Council have with North Warwickshire Borough Council. It is my understanding that any signs could be provided free of charge. The Clerk has been verbally informed that installation costs are approximately £500 for each bin. The Clerk is waiting for a breakdown of the costs and once in receipt would refer back for further consideration.

CiLCA Qualification

The Clerk will be taking the first session of the CiLCA training on Tuesday 09 July 2024 10.00am-1.00pm. Introduction and Unit 1.
