(Appendix 7a)

Email received Bowls Club, dated 19 October 2026

The Bowls club wishes to carry out some exterior renovation works due to the extremes of weather which has caused damage to the clubhouse but the funds required to repair exceed the bowls club.

Namely, we would like to extend the clubhouse canopy and replace the existing canopy roofing, secondly to replace the wooden decking which is rotten and is a slip hazard in the wet weather.

We have submitted a grant application to Sport England for this works and we have been awarded 50% of costs (£6920).

We now need to crowdfund to match this amount (raise a further £6920) before Sport England will provide funds.

Are the Parish Council OK for us to proceed in setting up a crowdfunding page ??
